The next few questions will ask about whether someone close to you has died. The reason we are asking people about how they feel if a family member or friend has died is because we know this can be difficult for people. Many refugees have lost loved ones because of things that have happened in the past, and so we want to know how best to plan things in the future to help people deal with these reactions. By understanding how people are feeling since losing a loved one, we hope to build services that will help other refugees in the future.
